REASONS FOR ALLOWANCE

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

References (6363120), (6266517), (5949283), (6711217), (6271724), (6583739), (6437644), (6275106), (6359508), (6078216), (5877653), (6011434) and (5760646) are cited because they are pertinent to the claimed invention.

Regarding to independent claims 1 and 11, none of prior art of record teaches or suggests an apparatus comprising, in combinations with other limitations recited in the claims, a reference RF up-converter that converts a first one of driving signals to a desired RF reference signal; a predistortion RF up-converter that combines a second one of the driving signals with a predistortion signal and converts the combined pre-distorted signal to a RF predistortion signal; an amplifier that amplifies the RF predistortion signal; a comparator that compares a sample of the RF predistortion signal with the RF reference signal and outputs an error signal corresponding to the comparison; a wide-band feed forward loop that amplifies the error signal and combines, in anti-phase, the amplified error signal with the amplified RF predistortion signal to produce an output signal; a measurement RF down-converter that samples and measures the error signal to provide a corresponding digital sampled error signal to a controller; and an adaptive estimator processor operatively coupled to the controller to estimate the performance of the apparatus by comparing the measured error signal with a delayed copy of an input signal and provide estimate information to the controller to support adaptive updating of the controller.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Phu whose telephone number is 571-272-3009. The examiner can normally be reached on M-F (6:30-2:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad Ghayour can be reached on 571-272-3021. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
